ABOUT

EntreSkills for Veterans is the New York Small Business Development Center's online tool for starting and growing your business. EntreSkills for Veterans covers the basics of what you need to know to achieve small business success.

SBDC Veteran Business Advisors modified the original EntreSkills curriculum based on a simple premise: military training and experience can be excellent preparation for starting a business. EntreSkills for Veterans is for military veterans, those on active duty, and reserve and guard forces.

Each chapter of EntreSkills for Veterans includes websites, videos, and success stories that enable you to study each subject area in depth. The chapters build cumulatively toward the preparation of a finished business plan. After completing the program, you will have developed a business plan draft through the use of our interactive Business Plan Builder.

The self-paced instruction contained in EntreSkills for Veterans is designed to be combined with one-on-one counseling from a Veteran Business Advisor to help guarantee successful results.
